THE INSIDE OF THE CUP" AT THE BUTLER TODAY

Every reader of current literature vill recall the sensation caused by the publication several years ago of Winston Churchill's powerful novel, The Inside of the Cup." The story attacked the alleged hypocrisy of certain clergymen and men of wealth dentified with churches as vestrymen. The philosophy of the book was criticized by churchmen in this country and in England as an unwarranted attack upon religion and the cloth. The picture rights have been obtained, the story has been creened and will be shown at the Butler today.

The essential features of the story. which is one of great dramatic force, Elks Orchestra have been retained, while the anti-Bro. Ryland G. Taylor hypocrisy philosophy of the author Mrs. Hugh Burk | necessarily has been subordinated to the general theme

The story deals with the rector of fashionable church who turns upon his wealthy parishioners when he discovers them parading under a mask of hypocrisy and invites the common people to attend his church. it is one of the most talked-of pictures of the year-Tomorrow, "The Stealers," an-
